FOLLOW THE TRAIL

What affectionately began over 20 years ago as a collection of exotic and domestic animals has become a delightful relaxing escape for the entire family.

Waccatee Zoo is located within 500 acres of privately preserved, wooded property. Along winding trails, you'll find over 100 species of animals, all treated with care. The zoo receives no state or government funding, just donations. Located where the Waccamaw River, Intracoastal Waterway and Socastee Creek join, Waccatee Zoo is a natural wildlife sanctuary and breeding ground for many species of migratory birds. At several times of the year it's not uncommon to see more than 1,000 beautiful egrets or heron in one small spot. Enjoy fun food from our snack shop, relax and enjoy the view!

Meet the chimp - who loves to watch soap operas on his own T.V., Booger the Black Bear, and Zebra. Herds of buffalo and deer roam the land, while big cats like the leopard, cougar & tiger eye you up close. We love the many petting areas and the menagerie of unusual wildlife. And see just who we've missed in the mix, we're sure there are quite a few yet unnamed!

WACCATEE ZOOLOGICAL FARM

"This land has been in our family for generations and we have an interest in maintaining its integrity. We wanted to create a place where people could share the joy of nature's sounds which have existed here for centuries. This dedication to preserving nature and our love of animals is the reason we created Waccatee Zoological Farm."
